Not compatible home phone service

We are not compatible with any **wireless** home phone service.

How do you know if the customer has wireless home phone service?

Wireless home phone service has a modem as well, but the difference between a **wireless modem** and a **standard modem**, is an antenna.

Unsure if customer has wireless home phone service?

Ask the customer to locate their modem, **Ask** "Is there a antenna on the modem" and if the customer says **"YES"** their home phone service is **wireless** and in home unit will not work! Offer a cellular unit.

Magic Jack
OOMA
StraightTalk
Sonic
Verizon Home Phone Connect
AT&T Wireless Home Phone
Sprint
T- Mobile
US Cellular
Consumer Cellular
Wirefly
Vonage
Spectrum

New Wireless Modems , antenna will be internal but will have the wifi logo
